Infrastructure trusts

Singapore Industrial REITs

KIT's value proposition vis-à-vis S-REITs

- 1 Regular and recurring cash flows across all economic cycles**
 - Not correlated to GDP, since cash flows are underpinned by long-term contracts
 - Real estate tends to be more cyclical, and are subject to rental cycles as well as regular rent reviews
- 2 Limited supply of core quality infrastructure assets**
 - Low barriers to entry and few players with strong track record
 - More varied options in the real estate sector
- 3 Long-term contracts**
 - KIT's assets are contracted at between 8 to 30 years, some of which include options for lease extensions
 - Weighted average lease expiry for industrial S-REITs at approximately 4 years
- 4 Low credit risks** with creditworthy and reputable off-takers or large diversified customer base
- 5 Sustainable leverage** positions KIT for future growth
